water smart[™]
FAMILY OF PRODUCTS

Item Number
N3137

Savings Using the Niagara Tank Bank

- **Each Tank Bank displaces 0.8 gallons per flush.**
- **The average household flushes the toilet 15 times a day.**
- **Over the course of one year (365 days), 4,380 gallons of water are saved!**
- **This equals \$18 saved per year*.**

* Water treatment costs calculated at \$4/1,000 gallons (includes waste water.)
Savings calculated per household and makes the assumption that all toilets are equipped with a Tank Bank.

The Toilet Tank Bank displaces water in the toilet tank, reducing the amount of water wasted with each flush.

- Easy to use - fill to top, snap to close and hang in toilet
- Every flush saves up to 0.8 gallons per flush
- Constructed of non-corrosive materials that resist microbes and fungal growth
- Anti-evaporation snap/airlock means the bag never needs refilling and prevents odors
