NIAGARA® CONSERVATION INTRODUCES STEALTH® ULTRA-HIGH-EFFICIENCY TOILET
Breakthrough Technology Produces Powerful, Quiet Flush Using Only 0.8 Gallons of Water

FORT WORTH, Texas – (October 4, 2011) – Niagara Conservation Corporation, a leading manufacturer of water and energy conservation products and services, recently introduced its [Stealth® Ultra-High-Efficiency Toilet](#). The vacuum-assist toilet features a low-profile body and patented hydraulic technology that dramatically cuts water usage to help homeowners lower their utility bills.

"The Stealth is unlike any other high-efficiency toilet on the market today," said Carl Wehmeyer, Niagara's Executive Vice President. "Its powerful, quiet flush uses only 0.8 gallons of water – versus the industry standard of 1.28 gallons – and has the potential to save homeowners up to 12,811 gallons and \$102 annually. That's 37 percent more water than regular high-efficiency toilets."

Offered in both round-front and elongated bowl models, and adaptable to fit a 12-inch, rough-in installation, the Stealth easily replaces existing toilets providing the highest level of water conservation functionality available:

- Ultra-High-Efficiency Flush 0.8 GPF (3.0 Liters)
- Quiet siphonic flushing action
- Chair height: 17 inches with seat
- White vitreous china
- EPA WaterSense® certified
- 10-year limited warranty

The Stealth joins Niagara's other high-efficiency toilets – [The Power One](#) (1.0 gallons per flush (GPF)), [EcoLogic™](#) [Niagara Flapperless](#) (1.28 GPF) and the [Niagara Flapperless](#) (1.6 GPF) models.

ABOUT NIAGARA CONSERVATION

Niagara Conservation Corporation, based in Fort Worth, Texas, is a leading manufacturer of water and energy conservation products and services. The company, founded in 1977 by William Cutler, has revolutionized the utility conservation industry with its [ultra-high efficiency toilets](#) including the revolutionary Stealth® UHET 0.8GPF toilet, [low-flow showerheads](#) and [aerators, lawn and garden](#) products and award-winning EcoKits™. Niagara Conservation truly embodies [It's Easy Being Green®](#) philosophy believing that by developing and introducing water and energy conservation products, programs and services, the company is contributing to a better quality of life for all. Niagara Conservation hosts satellite offices in New Jersey and California. The company also has international offices in Saudi Arabia and Chile and owns a manufacturing facility in China. Niagara serves a global client base throughout North and South America and the Middle East.
