## Power One® Toilet

High-Efficiency

1.0 GPF (3.8 LPF)

This high-efficiency toilet uses only 1.0 gallon per flush, making it the lowest-flushing pressure-assist toilet available on the market! The Power One® uses Sloan's Flushmate IV® pressure-assist flush system, providing a quieter flush than other conventional, pressure-assist toilets without sacrificing maximum performance, in a one-time, clog-free flush.

- 1.0 gallon per flush (3.8 LPF)
- 40psi inlet water pressure with fill time at approximately 30 seconds
- Tank with Sloan Flushmate® IV pressure-assist flush system
- MaP Score: 1,000g
- Sweat-free tank
- 12" rough-in
- Floor mounted, floor outlet
- Fully glazed trapway, 2" (51 mm)
- Oversized footprint
- Elongated models are ADA Chair height - 17" with seat
- Niagara toilets comes with a limited lifetime warranty on ceramics and a 10-year warranty on all replacement parts.
