- Powered by Niagara's web based program management software

NIAGARA
CONSERVATION®

Kit/Product Fulfillment Program

Niagara Conservation provides complete fulfillment program services to reach customers of both water and energy utilities nationwide. Whether your goal is to delivery products more cost-effectively or to market additional conservation products, Niagara has a fulfillment program solution best suited for your needs. Standard and customizable kits can include any combination of the numerous products in Niagara's catalog. Niagara can also include utility specific items and information.

Fulfillment orders can be acquired by Niagara in several ways. For most programs, Niagara provides its web-based customer ordering tool that enables your customers to order their conservation products 24 hours a day, seven days a week from the comfort of their home. To enhance the online ordering function, Niagara can also accept orders by way of business reply card. For the utility, Niagara's web-based program management software enables the utility to access critical program data with a few keystrokes.

- No hassle delivery using FedEx Smartpost
- Comprehensive program reporting available to meet your needs
- Unparalleled customer service
- Outstanding product warranties
