NIAGARA
CONSERVATION®

Voucher Management Services

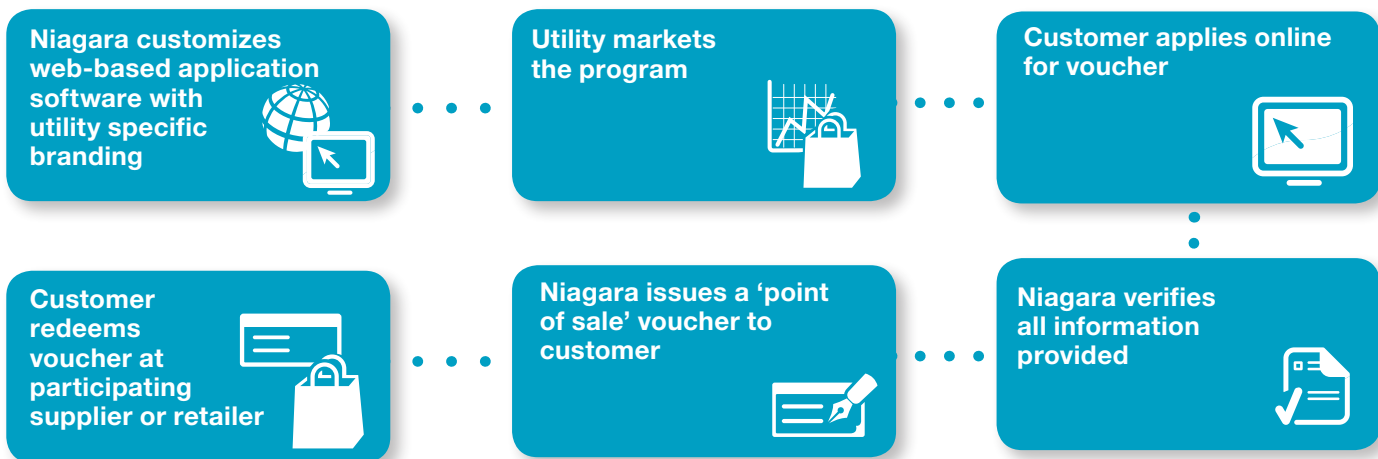

Niagara Conservation offers voucher management services to help deliver your program on time, and most importantly, on budget. As the leading provider of conservation program services in the industry, Niagara Conservation can efficiently and effectively manage your residential and commercial voucher programs. No matter what you are providing vouchers for, Niagara has a turnkey solution. Niagara's voucher management program enables our clients to be more productive, efficient and avoid higher administrative costs.

Niagara Conservation's programs are powered by our own web-based program management software. Your customers will enjoy the ability to apply for their vouchers 24 hours a day, seven days a week using Niagara's customized web-based application process. For you, our program management software provides access to essential program reports detailing critical productivity data. Some programs also offer web-based program budget management functionality.

Niagara Conservation's goal is to help our clients effectively plan their programs, identify and implement the appropriate hardware and solutions to meet efficiency goals. The success of your programs is Niagara Conservation's business.

- Niagara's program services combined with any of our WaterSense® certified products available from local suppliers means superior service and product at the best price
- Niagara's web-based program management software provides your customers with an efficient, utility branded application experience and you with the critical program data you need for reporting purposes
- Niagara's programs come complete with experienced project management and unparalleled customer service
